EYE STATEMENT OF PURPOSE

We empower **America's future** by educating, enlightening and enhancing the lives of young people. Our goal as a **Supplemental Education Service Provider** is to target students during the most challenging transitional period in their adolescent lives. As they are faced with academic challenges, social pressures, identity issues, puberty, family concerns, etc., we **aspire to open doors** of opportunity through **education** and **guidance**.

Education is paramount in ensuring future financial security, health & wellness, wise **life choices**, and overall **quality of life**. We are dedicated to providing supplemental education for youth that will aid them in becoming positive pillars in their respective communities.

"We have a powerful potential in our youth, and we must have the courage to change old ideas and practices so that we may direct their power toward good ends." - Mary McLeod Bethune

EYE PHILOSOPHY

EYE Partners proudly launches an initiative to focus on the academic enrichment, social development and behavioral progress of children. Our primary objective is to work diligently with each pupil to identify gaps in their **math and reading** skills by utilizing proven pre-assessment tools. Our intervention will result in an increase in their critical literacy and mathematical abilities. The skill enrichment received through our program will contribute to their ability to **perform above expectations** in the classroom and on standardized tests. Our goal is to clearly demonstrate an increase in comprehension and **performance** on post assessment data.

EYE Partners will aim to be an additional resource to **support families** and schools in addressing low attendance rates, student apathy, delinquency and the plethora of issues that plague adolescent society. The academic enrichment will follow a **culturally responsive** and research-based curriculum, implemented by a staff trained by certified education specialists.

EYE VISION

Our vision is to be "**fishers of men**" and **empower** a generation through education. We are obligated to **the future** and believe in the power of reinvestment into challenged communities, through **our youth**. As a supplemental education service provider we have a passion for **educating students** and utilizing resources to enhance the **development of young minds** throughout the United States of America.

EYE QUOTE FOR GROWTH

"Education and opportunity are the great emancipators in the fight for equality. This is why it is imperative for us to continue to fight to educate people..." - T.D. Jakes
